CIHEAM ZARAGOZA

PRESENTATION

CIHEAM Zaragoza(Mediterranean Agronomic Institute of Zaragoza) is the Spanish headquarters of the intergovernmental organisation CIHEAM (International Centre for Advanced Mediterranean Agronomic Studies). The Institute was founded in 1969 and is located on the Campus of Aula Dei, one of Spain's largest and most prestigious agrifood research and technology complexes.

From this high-level technical and scientific campus, the Institute provides international excellence in training and promotes research and cooperation to address the Mediterranean's key challenges in agriculture, livestock, fisheries, the environment, and natural resources. CIHEAM Zaragoza builds on its networks and collaborates with experts and organisations worldwide to develop capacities and transfer knowledge.

SPACES

CIHEAM Zaragoza is situated in the peri-urban agricultural area of Zaragoza, approximately 13 km from the city centre.

The Institute offers a variety of work spaces, located across two buildings, with a total capacity for 635 persons. These spaces are ideal for hosting conferences, workshops, training sessions or working meetings.

Other amenities include catering facilities, a large parking area, and public wifi access throughout the premises (captive portal).

CIHEAM Zaragoza also provides supplementary services including cleaning, photocopying, production of audiovisual materials (photos, videos, etc.).
